

# How does RASFF work

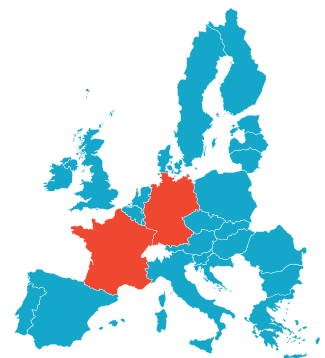

## ORIGIN

## PROCESS

## MEASURES

### CASE STUDY: E.coli

**Notifications on E.coli**  
food-borne outbreak  
linked to fresh  
vegetables  
(05/2011 - 07/2011)

**Tracing back foods** linked to  
the outbreak to find "hotspots".  
Once the contaminated food  
is identified: tracing  
the products in which it is present

**RASFF ALERT**  
Fenugreek  
seeds  
from Egypt

Fenugreek seeds,  
mixes of seeds,  
sprouts withdrawn  
in EU27 countries
